

Lindab Coverline™

Lindab Roca

A totally reliable roof solution

## When lightness carries weight

With Lindab Roca, you get a beautiful roof that keeps out the driving rain, heavy snow, hot sun and strong winds. It is quick to install, thanks to its low weight and, once finished, you can just sit back and enjoy your new roof.

A roof solution using Lindab Roca weighs only one-sixth of a roof constructed from concrete slabs. In other words, Lindab Roca allows you to build even lighter roofs. Since Lindab Roca is easy to lay, if you are a fairly practical person you can do most of the work yourself.

# A turnkey solution suitable for most applications

Lindab Roca is composed of a stable core of steel plate with several corrosion and moisture-inhibiting layers. The painted granulated stone that covers the surface provides a classic brick look while protecting the roof from the elements.

You can choose between five models and several different colours. Whatever combination you choose, you get a sleek, durable and easily maintained roof that will last for years to come.

A wide range of steel battens and accessories make Lindab Roca a complete system. If you also choose Lindab's roof drainage and roof safety system, you'll get a roof solution that can withstand anything the elements can throw at it.

## **Lindab Roca in brief**

- elegant and strong
- suitable for both older and newer buildings
- easy to install
- minimal maintenance
- lightweight
- natural colours
- guaranteed service life
- high quality and finish

# Dreaming of a patinous, classic tile roof that's easy to install and maintain?

Lindab Roca combines beauty with light weight and easy maintenance.

23

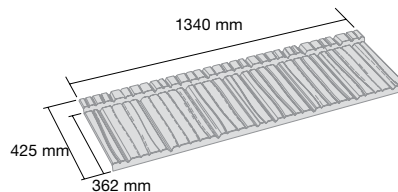

# Choose profile

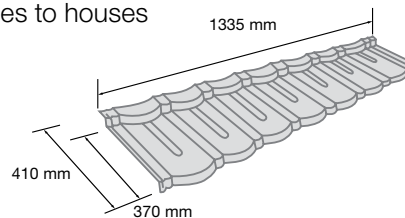

## Madera

Madera is inspired by wooden shingle roofs often seen in mountain surroundings. Perfectly combined features such as strength, attractive appearance, easy installation and longevity.

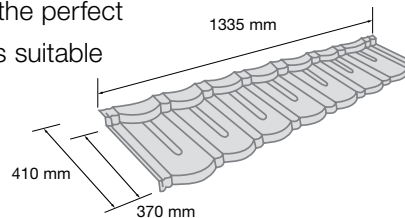

## Prestige

Prestige combines a moderna look with the charm of old tiles, making it the right choice when it comes to houses with a traditional appearance.

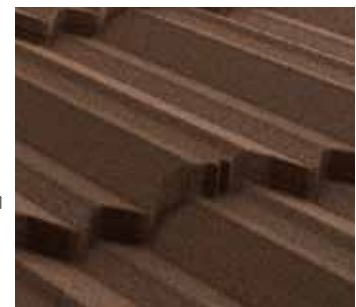

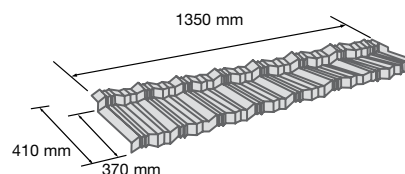

## Rustica

Rustica is the one in the profile range with the look of contemporary style of tiles, making it the perfect match to any type of house. Rustica is suitable for traditional-looking houses.

## Serena

Serena has an unique form of tile shaped model suitable for buildings with modern architecture.

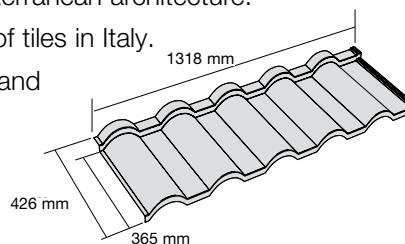

## Toscana

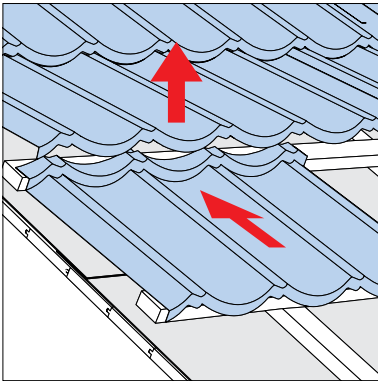

The ideal choice for homes with Mediterranean architecture.

With the looks of the characteristic roof tiles in Italy.

Shaded in dual tone gives an elegant and romantic note to your roof. Traditional appearance and pastel colour combinations in perfect harmony.

# A complete roof solution

## **Installation**

Lindab Roca is supplied in panels and is simple to install.  
For more information, see separate installation instruction.

## **Fasteners**

Our fasteners are available in matching colours and are stainless steel for maximum durability.

## **Roof drainage**

With Lindab Rainline you get a roof drainage system as durable as your new roof. Complete solutions in the colours and sizes you need.

## **Roof safety**

The Lindab roof safety system gives you individual solutions and components that provide the best protection.

## **Flashings**

We have a wide selection of flashings to give your roof the perfect finish. The many different shades allow you to create a stylish overall impression.

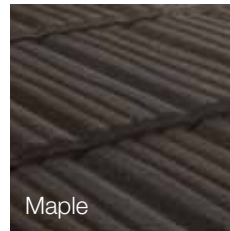

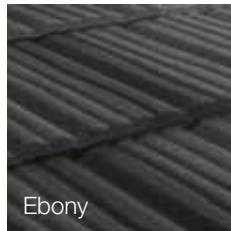

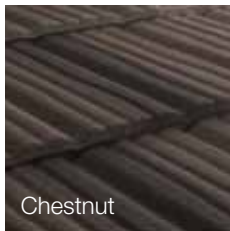

## **Roof transitions**

We have roof transitions for different chimney sizes.
